Please come and visit our gallery in Gate Avenue and also we are waiting for you Under The Gate / Gate Village to Visit Sculpture Park, to discover interesting opportunities during 2022 Art Week.

### 50th YEAR of UAE Private Collection By Ahmet Güneştekin

The seven emirates of the United Arab Emirates (UAE) consist of Abu Dhabi, Dubai, Sharjah, Umm Al-Quwain, Ras al-Khaimah, Ajman, and Fujairah. Dubai captivates the whole world with its Bedouin history, culture and charm. When it started to emerge from the middle of the desert in the 1970s, no one expected the city to achieve today's glory. Unlike initial horizontal structure skyscrapers built in the 1980s and in later years made it look like a miracle. The growth of Dubai began with changes in financial approach. Although oil, being one of the key materials of life, played an important role in economic and intellectual progress of Dubai, the driving force behind its globalisation and urbanisation was how the main actors of financial scene perceived the world.
